

TOWN OF GREENBURGH PAVING OPERATIONS

Paving in the Town of Greenburgh began September 2, 2014 and will continue as weather permits.

During the week beginning October 6, 2014, no road paving will occur on the roads of the Unincorporated Town of Greenburgh. The Contractor will be paving in a Village of Greenburgh and will then return to the Unincorporated Town of Greenburgh.

Paving is expected to be suspended near the end of October and resume in April.

We ask for your patience and cooperation while paving operations are conducted. The paving will be performed with as few interruptions to daily traffic as possible, but, please understand, interruptions are unavoidable.

If you have been notified by mail that your street will be paved and your street is not listed above, please check back as tentative schedules will be posted weekly.

If you have any questions, please contact the Bureau of Engineering (914) 993-1583
