

Success Right from the Start!

All too often our children are placed in “learning” situations that set them up to fail right from the start. Our philosophy at The Play Place is “learning happens under the right circumstances” Creating a smaller multipurpose sports field with proportional goals and 10 & under tennis courts, using smaller racquets, lighter balls and shorter nets, puts kids in the perfect learning environment that is much more effective and rewarding. We ensure that kids feel successful right from the start.
